\*\*ELIGIBLE OTC: Although a prescription isn't required, eligible OTC products must be primarily for a medical purpose to diagnose, alleviate or treat an existing or imminent injury, illness or medical condition or to prevent disease. Generally, cosmetics, antiperspirants, hygiene products and hair-care and skin-care products that do not have active ingredients (and other items for general use and comfort) are not eligible OTC products for purposes of tax-favored reimbursement under an FSA or HSA. Certain plans may vary as to what they consider to be eligible.

Use products only as directed.
